

LAMBDA<sup>®</sup>

**L A M B A**

bir

markasıdır.

Lambaled; Meis Elektronik'in patentli markası olup son kullanıcılar için Kaliteli ve Ekonomik Led Aydınlatma Ürünleri ile değerli müşterilerimize hizmet vermektedir. Firmamız Meis Elektronik 2007 yılında kurulmuştur. Firmamızın ana iş kolları Led Aydınlatma Ürünleri, Yenilenebilir Enerji Ürünleri ve Akıllı Ev Otomasyon Sistemleridir. Teknoloji odaklı ürünlerimizi 10 markamız ve çoklu ürün yelpazemiz ile üretmekteyiz. Ürünlerimizin ilk fikrinin oluşmasından ürün olarak üretim hattından çıkışına kadar sürekli Ar-Ge çalışmalarıyla en iyi ürün, kalite ve uygun fiyatlarla kalıcı erişimi hedefledik. Ürünlerimizin tamamı doğaya saygılı, enerji tasarrufu sağlayan ve ekolojik dengeye zarar vermeyen ürünlerdir. Firmamız gelişen teknolojiyi takip ederek kendini sürekli yenileyen bir işletme olarak siz değerli müşterilerimize hizmet vermeye devam edecektir.

## LED AYDINLATMA AVANTAJLARI

### YILLIK MALİYET TASARRUFU

Led Aydınlatma ürünleri tercih edilerek yapılan aydınlatmalarda; eski nesil aydınlatmalara eşdeğer aydınlanma sağlanarak %80'e varan enerji tasarrufu ile yıllık bazda ortalama en az %60 kazanım sağlanmaktadır.

### DÜŞÜK KARBON EMİSYONU

Led Aydınlatma ürünleri tüketilen enerjinin en az %80'nini ışığa çevirerek, eski nesil aydınlatmalara istinaden daha az ısı yayılımı sağlarlar. Bu sebep ile karbon emisyonu çok düşüktür.

### DOĞA DOSTU

Led Aydınlatma ürünleri, eski nesil fleurosant ve tasarruflu ampul diye adlandırılan aydınlatma ürünleri gibi civa içermez. Diğer aydınlatma ürünleri gibi ömürlerini tamamladıklarında doğaya zarar vermez.

### DÜŞÜK GÜÇ YÖNETİMİ

Led Aydınlatma ürünlerinin, ısı yayılımı minimumda olması sebebi ile; klima kullanılan ortamlarda klima ünitelerinin daha az çalışmasını sağlamaktadırlar. Bu sebep ile eski nesil aydınlatma ürünleri gibi çevreye ısı yayılımları minimumdur.

### DAYANIKLILIK

Led Aydınlatma ürünleri, eski nesil aydınlatmalar gibi bir filament yoktur. Bu sebep ile sarsıntı ve titreşimlerden etkilenerek arıza yapmazlar.

### TITREME YAPMAYAN ANINDA ÇALIŞMA SİSTEMİ

Led Aydınlatma ürünleri, çalışmaya başladıkları an itibarı ile %100 verimlilikle ışıklarını vermeye başlar. Eski nesil aydınlatmalar ise ilk açıldıklarında bir ısınma süreci sonrasında verimlilikleri en üst seviyeye ulaşır. Led Aydınlatma ürünleri fleurosant ürünleri gibi ilk çalışma esnasında kırma yapmaz.

### UZUN ÖMÜRLÜ

Led Aydınlatma ürünleri, uzun ömürlüdür. Yaklaşık 50.000 saat çalışma süreleri ile geleneksel aydınlatma ürünlerine göre 10 kata kadar varan ömürleri bulunmaktadır.

### DÜŞÜK ISI VE DAHA AZ UV IŞINI

LED Aydınlatma Ürünleri; çok az Ultra Violet ışık (UV) yayarlar. UV ışık böcekleri çeker ve cilt, giyim ve sanat için zararlı olabilir. Isı emisyonları önemli ölçüde düşüktür, ısıya duyarlı uygulamalar için dokunmak serin ve mükemmel uygulamalar LED ile sağlanır.

### BAKIM GEREKTİRMEZ

LED Aydınlatma Ürünleri; geleneksel aydınlatma ürünlerine göre bakım gerektirmez.

### ÇEVREYE ZARARLI ATIK İÇERMEZ

LED Aydınlatma Ürünleri; geleneksel aydınlatma ürünleri içerisinde bulunan fleurosant aydınlatmalar içerdiği civa sebebi ile 1. Dereceden tehlikeli atık statüsünde geçmektedir. Bu ürünlerin geri dönüşüm maliyetleri daha pahalı olmaktadır. 1 fleurosant'ın içerdiği civa 30.000 Litresuyu kirletebilir niteliktedir. Led Aydınlatma ürünleri civa v.b. sağlığa ve çevreye zararlı atık içermediği için geri dönüşümü daha az maliyetli olup, çevreye saygılı

### VERİMLİ ÇALIŞMA SİSTEMİ

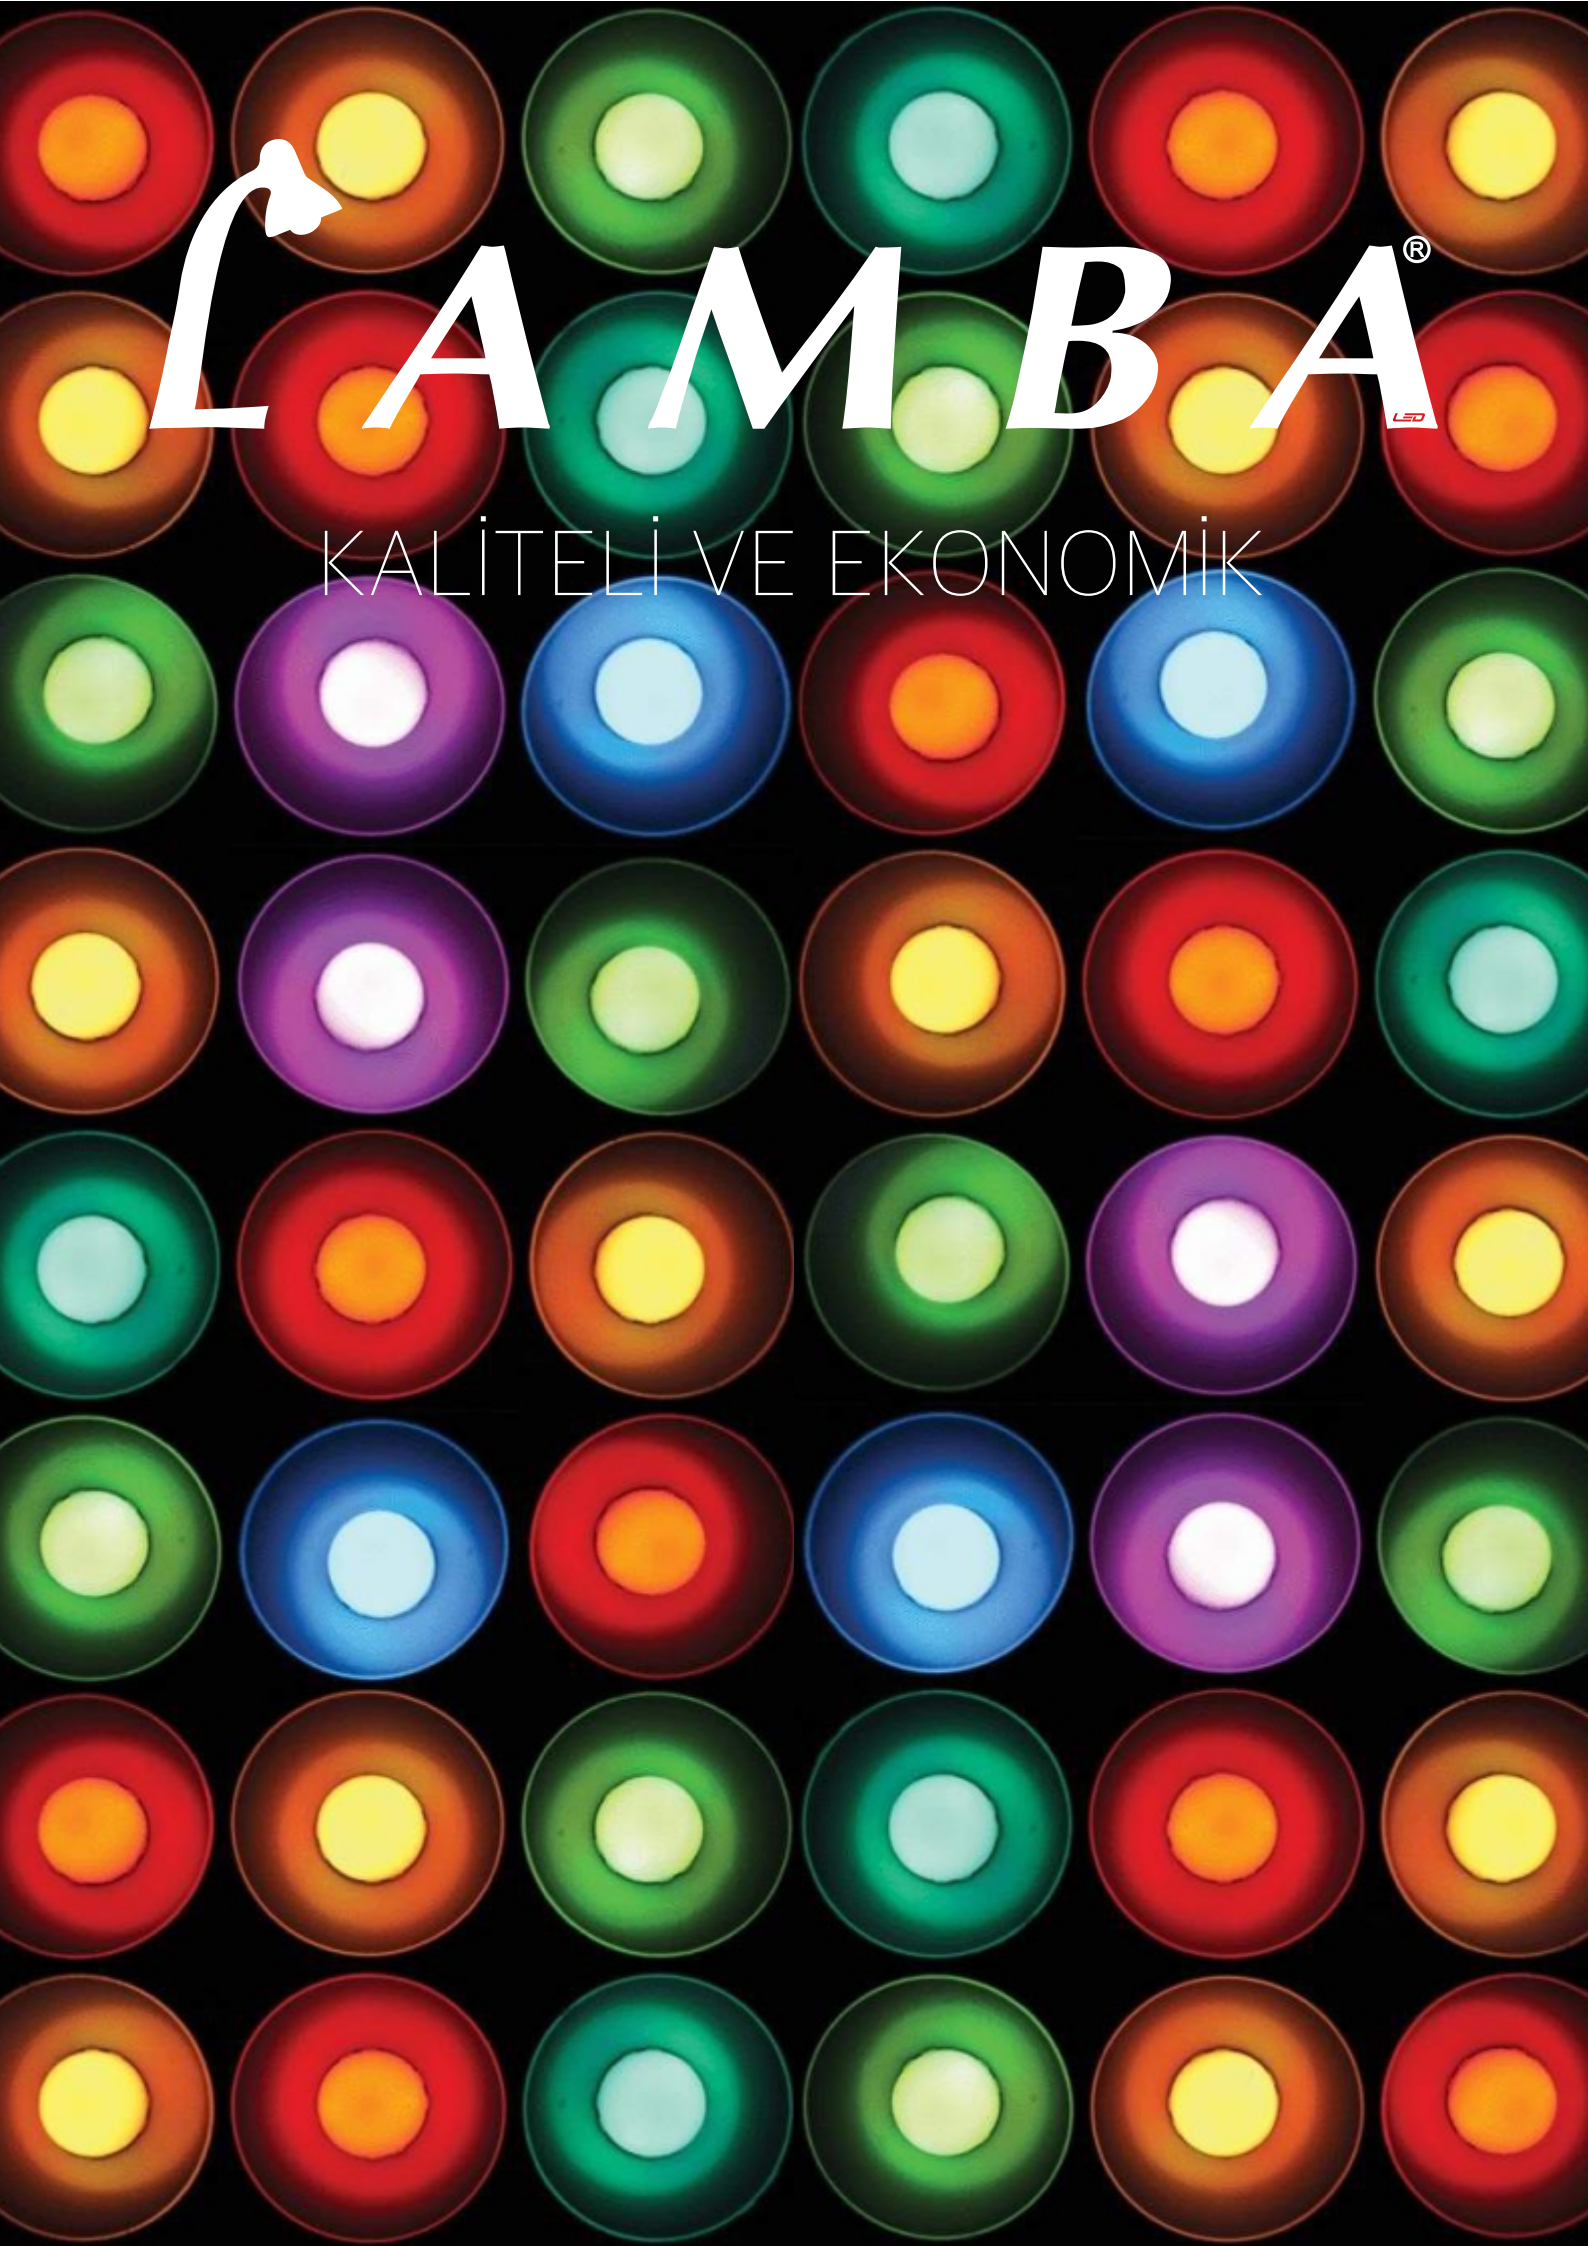

LED Aydınlatma Ürünleri ile çalışma ortamlarında homojen ve daha parlak bir çalışma ortamı sağlanarak, ışığın altında çalışan personelin verimlilik artışı gözlenmektedir.
